Revised 1/1/2020
EXAMINATIONS BY PSI SERVICES LLC

This Candidate Information Bulletin provides you with information about the examination and application process for becoming licensed as a Lead Inspector, Lead Supervisor, or Lead Risk Assessor in the Commonwealth of Virginia. To be licensed, you must pass an examination to confirm that you have attained at least a minimum level of knowledge regarding the principles, practices, statutes, and regulations. The Department of Professional and Occupational Regulation (Department) has contracted with PSI to conduct its examination program. PSI works closely with the Department and its Examination Review Committee to be certain that examinations meet local, national, and international requirements in basic principles and examination development standards.

EXAMINATION ELIGIBILITY REQUIREMENTS

Candidates will need to apply for eligibility with the Department before being allowed to take an examination. Each examination consists of two-portions: Virginia Law and Lead. If you fail one portion but pass the other you will only be required to retake the portion that you failed. You must pass both portions within three (3) years of Board approval and you will have three (3) attempts. If you fail the examination three times, whether one or both portions, you must submit a new application to the Board and meet all current requirements. Please note: a passing score on the Virginia Law portion is valid for 3 years. If you take another trade portion during the 3 year period, you do not need to retake the Virginia Law portion.

Candidates should go to the Department’s web page to begin the process: www.dpor.virginia.gov/Boards/ALHI.

TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial to the computer and keyboard is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice using the keys, answering questions, and reviewing your answers.

TEST QUESTION SCREEN

The “function bar” at the top of the test question screen provides mouse-click access to the features available while taking the examination.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

IMPORTANT: After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

EXAMINATION REVIEW

PSI, in cooperation with the Department, will be consistently evaluating the examinations being administered to ensure that the examinations accurately measure competency in the required knowledge areas. While taking the examination, examinees will have the opportunity to provide comments on any questions, by using the comments key on the keyboard. These comments will be analyzed by PSI examination development staff. PSI does not respond to individuals regarding these comments, and all substantive comments are reviewed. This is the only review of examination materials available to candidates.

SCORE REPORTING

Your score will be given to you immediately following completion of the examination. In order to pass the examination, you must achieve a minimum score of 70%.

Your results will be given to you immediately following completion of the examination.

- If you pass, you will receive an examination result report which will indicate “PASS”.
- If you do not pass, you will receive a diagnostic report indicating your strengths and weaknesses.

DUPLICATE SCORE REPORTS

You may request a duplicate score report after your examination by emailing scorereport@psionline.com or by calling 800-733-9267.
TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION

The following suggestions will help you prepare for your examination.

▪ Planned preparation increases your likelihood of passing.
▪ Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
▪ Read study materials that cover all the topics in the content outline.
▪ Take notes on what you study. Putting information in writing helps you commit it to memory and is also an excellent business practice. Underline or highlight key ideas that will help with a later review.
▪ Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
▪ Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

Candidates taking the Risk Assessor, Inspector, or Supervisor examination must also pass the Virginia Law examination.
