TAKING THE THEORY EXAMINATION
(COMPUTER BASED)

The examination will be administered via computer. You will be using a mouse and computer keyboard.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions, and reviewing your answers.
TEST QUESTION SCREEN

The “function bar” at the top of the test question provides mouse-click access to the features available while taking the examination. One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

EXAMINATION REVIEW

While taking the theory examination, examinees will have the opportunity to provide comments on any questions. Comments may be entered by clicking the Comments link of the function bar of the test question screen.

These comments will be analyzed by PSI examination development staff. PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. This is the only review of examination materials available to candidates.

SCORE REPORTING

Examination results for both theory and practical are provided to you immediately following completion of the examination. The minimum score required to pass both the theory and practical examination is 75. When you complete the examination, you will receive a score report indicating “FAIL” or “PASS”.

DUPLICATE SCORE REPORTS

You may request a duplicate score report after completing the examination by emailing scorereport@psionline.com or by calling (833) 310-6427.

PREPARATION TIPS FOR THE THEORY EXAMINATION

The following suggestions will help you prepare for the examination.

▪ Planned preparation increases your likelihood of passing.
▪ Start with a current copy of this Candidate Information Bulletin and use the examination content outline as your starting point.
▪ Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice. Underline or highlight key ideas that will help with a later review.
▪ Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
▪ Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.
