## BOARD WELCOMES PROFESSIONAL ENGINEER

Vinay Nair, Professional Engineer, joined the APELSCIDLA Board in February 2019. Mr. Nair is a Senior Manager in the Corporate Real Estate Practice of EY. Mr. Nair has years of experience in planning, design, production and construction management of public and private sector engineering and construction projects. His specific experience includes managing large infrastructure improvement projects while working with federal, state and local government agencies. Mr. Nair has extensive experience with establishing and operating Project Management Offices (PMOs) to manage large, complex construction and capital improvement projects. Mr. Nair is a licensed Professional Engineer (PE), Certified Construction Manager (CCM), and holds a Project Management Professional (PMP) credential from the Project Management Institute. As a licensed Professional Engineer, he routinely applies his experience in knowledge management and project management to the delivery of quality products that involve extensive research and technical writing.

## NCARB President's Medal for Distinguished Service

Twelve individuals have been awarded the National Council of Architectural Registration Board's (NCARB) highest honor, the President's Medal for Distinguished Service. The medals were bestowed by 2018-2019 President David L. Hoffman, FAIA, NCARB, Hon. FCARM, at the organization's 2019 Centennial Annual Business Meeting. President Hoffman commended each of this year's recipients for their commitment to architectural regulation and NCARB's mission to protect the public's health, safety, and welfare. A Virginia architect board member and the executive director were two of the recipients:

**Robert A. Boynton, FAIA**, of Richmond, Virginia, was recognized for nearly 30 years of service to the Council, Region 2, and 18 years of service to the Virginia Board for Architects, Professional Engineers, Land Surveyors, Certified Interiors Designers, and Landscape Architects. In addition, to serving on various leadership positions on the NCARB Board of Directors and Virginia Board, Boynton was appointed to the NAAB Board of Directors and the AIA National Ethics Council. As NCARB president in 2004, Boynton led efforts to update the ARE's content areas and expand international practice through the Tri-National Council and APEC Architect Project Steering Committee. Since the early-1990s, Boynton has volunteered for over a dozen initiatives, including the Education, Examination, Broadly Experienced Architect, and Professional Conduct committees. Boynton also provided his insights and institutional knowledge as a valuable member of the Centennial Advisory Committee.

**Kate R. Nosbisch, Hon. AIA**, of Richmond, Virginia, was recognized for her many years of service to the Council and Virginia Board for Architects, Professional Engineers, Land Surveyors, Certified Interiors Designers, and Landscape Architects. Nosbisch became the board executive of the Virginia Board in 2008 and was elected to the NCARB Board of Directors in 2013 as the Member Board Executive director. Her passion for professional, best-practice approaches to governance has influenced her peers nationally as well as the NCARB culture. Throughout her service to NCARB, she has been a dedicated volunteer on the Audit, Member Board Executives, and Policy Advisory committees, as well as the Model Law Task Force. For the past decade, Nosbisch has served as a voice of her constituents and played a vital role in improving the effectiveness of the Council's services for Member Boards.

## DOLI Approves Land Surveyor Apprenticeship Program

The Department of Labor and Industry recently approved the latest version of the Virginia Surveyor Apprenticeship Standards, July 2, 2019. The latest version is [here](#):  
<http://www.dpor.virginia.gov/Boards/APELS/#surveyor1>

An outline explaining the steps of how to become a land surveyor via the apprenticeship program was developed by the APELSCIDLA Board to explain to applicants the necessary steps to become an apprentice. This information can be found [here](#):  
<http://www.dpor.virginia.gov/uploadedFiles/MainSite/Content/Boards/APELS/How%20to%20become%20a%20Land%20Surveyor%20via%20apprentice%207.02.19.pdf>

### **Employee Information**

#### ***Eligibility and Requirements***

- As a full-fledged employee of the sponsoring company, a Registered Apprentice completes a minimum of 2,000 hours of supervised on-the-job training and a minimum of 144 hours of related technical instruction for each year of apprenticeship.
- Apprenticeship terms are occupation specific, but the average term is four years.
- Successful completion of the Registered Apprenticeship Program earns the apprentice nationally recognized state certification as a journeyman.
- All apprentices are registered through a Department of Labor and Industry apprenticeship consultant.

#### ***Finding a Program***

- Speak with your employer to see if your place of employment is a registered apprenticeship sponsor or if there is interest in becoming a sponsor.
- If you work for a Registered Apprenticeship sponsor, have your employer contact a local Virginia Department of Labor and Industry apprenticeship consultant to register you as an apprentice.

#### ***On-the-Job Training***

The apprentice's sponsor provides on-the-job training through qualified journeymen.

#### **Related Instruction**

Related instruction may be provided through your local community college, a vocational and technical center, electronically or, in some instances, at your place of employment.

## **VDOT releases Right of Entry, Property, Prescriptive Easements & Metes & Bounds Surveys in its Survey Manual**

The Land Surveyor Section of the APELSCIDLA Board created a document to help surveyors understand a problem regarding the misinterpretation of the Byrd Act (the center of the road, fifteen feet each way for easement and maintenance to road.) The Board worked with the Virginia Department of Transportation (VDOT) to incorporate the document regarding § 33.1-105 Evidence as to the Existence of a Public Highway into VDOT's survey manual. The survey manual can be found here: [http://www.virginiadot.org/business/locdes/survey\\_manual.asp](http://www.virginiadot.org/business/locdes/survey_manual.asp) Chapter 4 contains the information on Right of Entry.
